

Mohammad Touhidul Islam

Senior Software Engineer

• Chattogram, Bangladesh • +8801779182800 • muhdtouhidul@gmail.com • in/touhidulfahim

Summary

Senior Software Engineer with **9+ years of experience** designing and delivering **enterprise-grade and SaaS applications** using **.NET Core, ASP.NET Web API, Angular, and MSSQL/PostgreSQL**. Strong expertise in **Clean Architecture, CQRS, MediatR, and multi-tenant systems**, with proven ability to **modernize legacy applications, lead development teams, and collaborate with stakeholders** to deliver **scalable, secure, and high-performance solutions** for local and international clients.

Experience

Senior Software Engineer | Patricius IT | (5th Floor) 90, M B Complex, East High-Level Rd, Chittagong 4225 | April-2025 – Present (Hybrid)

- Developed enterprise and SaaS applications using .NET Core, C#, and Angular, supporting **1K+ active users** across multiple business domains.
- Designed and maintained secure, scalable REST APIs handling **10K+ daily requests** with consistent sub-second response times.
- Utilized SQL Server and PostgreSQL to support **high-volume transactional and reporting workloads**, improving query performance by **30%** through indexing and optimization.
- Engineered real-time application features using SignalR, enhancing live data visibility by **40%** and accelerating user interactions.
- Leveraged Azure services (App Service, Functions, Key Vault) to deploy and manage cloud infrastructure, achieving **99.9% service uptime**.
- Designed and maintained CI/CD pipelines using Azure DevOps, reducing deployment time by **50%** and minimizing release-related issues.
- Collaborated with cross-functional teams to gather requirements and deliver technical designs, accelerating feature delivery by **25%**.
- Contributed to an AI-powered Quality Management System, improving user guidance and operational efficiency by **20%**.
- Modernized legacy applications by migrating core components to microservices with containerization, improving scalability and maintainability while reducing production incidents by **35%**.

Senior Software Engineer | R.M. Interlinings Ltd. | Plot-36, Sector-4, CEPZ, Chattogram, Bangladesh | March-2019 – March-2025 (Onsite)

- Technically led the end-to-end software development lifecycle for multiple enterprise systems.
- Mentored developers and enforced coding standards, Git workflows, and PR reviews.
- Designed and implemented scalable systems using Clean Architecture, CQRS, and MediatR.
- Migrated legacy ASP.NET WebForms applications to ASP.NET Core 7.
- Collaborated with business analysts and stakeholders to translate requirements into technical solutions.
- Identified performance bottlenecks and resolved critical production issues.
- Participated in regular stakeholder and management review meetings to align technical delivery with evolving business needs.
- Built scalable applications from requirements gathering through deployment and user training.
- Actively participated in problem-solving sessions and knowledge-sharing initiatives.

Software Engineer | Pentagems | Dhaka Bhaban, Eidgah Kacha Rasta, Pahartali, Chattogram, Bangladesh | September 2017- December 2018 (Onsite)

- Developed server-side functionality using **ASP.NET MVC, C#, Entity Framework, and SQL Server**
- Upgraded existing applications to newer ASP.NET versions
- Designed and implemented business-driven modules based on functional requirements
- Authored and maintained technical documentation and user manuals
- Collaborated with team members to deliver high-quality software solutions

Project Engineer | Sishant Multi-Net Engineering | CPAR Gate, Chittagong Port Authority, Chattogram -4100, Bangladesh | March 2013- November 2016 (Onsite)

- Installed and maintained security databases in a high-security data center environment
- Supported and maintained **RFID-based vehicle and personnel verification systems**
- Maintained gate control systems at Chittagong Port Authority (CPAR)
- Worked closely with stakeholders to gather requirements and improve operational workflows

Projects

OTA (Web based Online Travel Agency) | Patricius IT | December 2025 – Present

- Designed and developed a web-based **Online Travel Agency** using **.NET 8, Angular 19, and MSSQL**
- Built responsive Angular UI components and secure REST APIs aligned with compliance standards
- Collaborated with stakeholders and managed requirements through **Azure DevOps Boards**

Tech Stack: .NET 8, Angular 19, MSSQL, Azure DevOps, Clean Architecture, CQRS, MediatR, SignalR, Hangfire, Serilog.

QMS (Web based Quality Management Systems) | Patricius IT | April 2025 – November 2025

- Designed and developed a web-based **Quality Management System** using **.NET 9, Angular 19, and PostgreSQL**
- Built responsive Angular UI components and secure REST APIs aligned with compliance standards
- Collaborated with stakeholders and managed requirements through **Azure DevOps Boards**
- Integrated **AI-driven quality analysis and automated anomaly detection** to enhance decision-making and operational efficiency

Tech Stack: .NET 9, Angular 19, PostgreSQL, Azure DevOps, Clean Architecture, CQRS, MediatR, SignalR, Hangfire, Serilog.

EMPLOYEEMATE (Web based HRMS) | R.M. GROUP | August 2024 – March 2025

- Defined and enforced **Git branching strategies** and conducted PR reviews
- Guided team adoption of **Scrum and Agile practices**
- Designed core system architecture using **Clean Architecture**
- Collaborated with stakeholders and managed requirements via Azure DevOps
- Implemented **User Management, Procurement, Sales & Collection modules**
- Built reporting and email notification systems
- Migrated legacy **ASP.NET WebForms** applications to **ASP.NET Core 7**

Tech Stack: ASP.NET Core Web API, EF Core, MSSQL, Angular, Azure DevOps, CQRS, MediatR, Serilog, Html2PDF

PapyrusTEX (Web based Textile ERP) | R.M. Interlinings Ltd. | October 2020 – July 2024

- Led architecture and development of ERP modules using **Clean Architecture**
- Enforced Git workflows and conducted PR reviews
- Implemented core business modules including procurement, sales, and reporting
- Migrated legacy systems from **WebForms to ASP.NET Core**
- Supported full SDLC from design to post-deployment support

Tech Stack: ASP.NET Core, ASP.NET MVC, EF Core, MSSQL, Angular, Bootstrap, CQRS, MediatR, Crystal Reports

R.M. FamilyApp | R.M. Interlinings Ltd. | March 2019 – December 2019

- Developed internal systems including:
 - a. Online document & SOP management
 - b. Automated customer feedback system
 - c. Payroll and pay-scale generation
 - d. Recruitment and job portal modules
 - e. Employee information and access control systems

Tech Stack: ASP.NET MVC, MSSQL, Bootstrap, jQuery, Repository Pattern

BDS (Bitumen Delivery Systems) | Pentagems | September 2017 – April 2018

- Implemented order management, delivery scheduling, and challan modules
- Developed real-time email notification system.
- Built operational and VAT/tax reporting modules

Tech Stack: C#, ASP.NET MVC, MSSQL, Bootstrap, JavaScript, jQuery, Ajax, 3 Layer Architecture with Repository Pattern, Rotativa, Git, GitHub.

Health Card Validations and Billing Management | Pentagems | May 2018 – December 2018

- Implemented real-time health card validation with government services
- Built eligibility verification and billing workflows
- Stored and managed verification, patient, and service data securely

Tech Stack: C#, ASP.NET MVC, MSSQL, Bootstrap, JavaScript, jQuery, Ajax, 3 Layer Architecture with Repository Pattern, Rotativa, Git, GitHub.

Education

B.Sc. in Computer Science and Engineering | East Delta University. Chittagong | Abdullah Al Noman Road, Noman Society, Chattogram 4209 | 2018

Diploma in Computer Engineering | Chittagong Polytechnic Institute | Nasirabad, Chattogram 4209 | 2010

Certifications

Web Application Development - Dot Net (BITM) 43 Batch | BASIS Institute of Technology & Management (BITM) | 2017

It's certified that I have completed 3 months hands on training on C# and ASP.NET MVC.

DevOps Fundamental Course (Online training on Dev Skill)

Database for Software Developers: Online live training on Ostad

Technical Skills

Frontend: Angular, HTML, CSS, Bootstrap, JavaScript

Backend: C#, ASP.NET (WebForms, MVC, Core, Web API), EF Core, LINQ

Database: SQL Server, PostgreSQL, MySQL

Architecture: Clean Architecture, CQRS, MediatR, SOLID

DevOps & Cloud: Azure DevOps, CI/CD, Docker

Other: SignalR, Hangfire, Serilog, REST API Integration

Soft Skills

Communication • Leadership • Mentoring • Problem Solving • Stakeholder Collaboration

Community Involvement

Actively engaged in local social initiatives, supporting **underprivileged families** and organizing donation drives to improve community welfare. Demonstrated leadership, empathy, and organizational skills while balancing professional responsibilities, reflecting a strong commitment to social impact alongside a technical career.
